OCTOBER 7–8 • SVG VIRTUAL SERIES

Day 2 • October 8

AGENDA (All Times Eastern)

2:00 – 2:05 p.m. WELCOMING REMARKS

presented by **grass valley**

2:05 – 2:35 p.m. KEYNOTE CONVERSATION: Beyond the Standards: NMOS and PTP Update

The move to IP introduces some new challenges and the solutions and specifications to address those challenges are constantly evolving. Two of the key tools in the move to IP are NMOS, which handles network discovery, control, and management of all devices and PTP, the network equivalent of a master-sync generator. Understanding both of those concepts and their impact on the network and how it is managed and deployed are of utmost importance. During this session you will get an update on the latest developments.

MODERATOR:
Ken Kerschbaumer, SVG, Executive Director, Editorial
SPEAKER:
Gary Olson, GHO Group, Principal

2:35 – 2:50 p.m. SONY CASE STUDY: Building Remote and Distributed IP Production Environments

presented by **SONY**

PRESENTER:
Deon LeCointe, Sony Electronics,
    Senior Business and Technology Manager – Live Production Systems

2:50 – 3:35 p.m. IP-BASED TRUCK DESIGN

More and more remote production services providers are rolling out IP-based production units. What are the challenges to go IP on the road? What are the benefits? And what are areas still need to be improved to make IP on the road all it can be?

MODERATOR:
Ken Kerschbaumer, SVG, Executive Director, Editorial
PANELISTS:
Al Karloff, Dome Productions, Manager, Engineering Services
Joseph Signorino, NEP Broadcast Services, VP, Systems Integration,
    U.S. Mobile Units
Jason Taubman, Game Creek Video, SVP, Technology
Peter Wehner, Mobile TV Group, Engineer-in-Charge

3:35 – 4:20 p.m. TECH FOCUS: IP Routers Update

IP routers are at the center of any IP production. Join us to learn some of the latest improvements to IP-based routers, tips on making sure your team gets the most out of IP signal transport, hybrid SDI/IP environments, and more.

PANELISTS:
Chris Lapp, Cisco Systems, Technical Solutions Architect,
    Media and Entertainment
John Mailhot, Imagine Communications, CTO, Networking and Infrastructure
Phil Myers, Lawo, CTO
Robert Welch, Arista Networks, Technical Solutions Lead
